Josh Adams
Smarter Schooling Inc.

Dear Mr. Adams:

I am writing because I'm very interested in the job opportunity you have offered. I would love to be a part of what you're doing. I am not only writing because I want a job, but because I am truly passionate about this and I see it as a great opportunity for me to help and use my passion and experience to change the world.

When I was in 10th grade in high school (16 years old) I started taking classes at Bloomsburg University. When graduating from high school I had already accumulated 30 college credits, meaning I had completed two years of college in high school.

Sincerely,

Tristan Peace
